SHOW ON THE BEACH

OUTDOOR THEATRE

Aventura Palace

Riviera Maya, Mexico, 2007

The Aventura Palace's romantic atmosphere makes it a choice destination for newlyweds. Many even decide to get married in this magical place, and the Palace management has all the infrastructure in place.

Description

What makes the experience unforgettable is the immersive multimedia installations set up right on the beach. All the technical equipment is concealed within sets that blend in with the natural surroundings, creating unexpected spectacular effects. These include projections on a giant screen and on a water screen, mist generators and other special effects that enhance this high-colour venue.
