LEST WE FORGET

AUDIOVISUAL INTEGRATION

Warehouse421

Abu Dhabi, United Arab Emirates, 2015

Lest We Forget, an exhibition presented at the Warehouse421 cultural space in Abu Dhabi, is a one-of-a-kind initiative led by Emirati women. This unique exhibition presents the history of the United Arab Emirates through objects and family photos from the 1950s to the present that have been made public for the first time. The exhibition design is signed gsmprjct.

Description

XYZ Cultural Technology was in charge of the exhibition's technical design and the integration of the lighting and the audio-visual material (projectors, screens, multi-user interactive tables, digital tablets and speakers). The team also modified an old 1960s era television to make it functional again.
